Bomanite
Custom Polishing
System

Permanence

After 50 years, how do you top Bomanite?

With a revolution in concrete floor finish. After five decades, we didn't think we could top Bomanite, known as the first and finest cast-in-place concrete. But the patented technology of the new Bomanite Custom Polishing System, paired with our long-established color and craftsmanship, delivers the industry's best concrete floor finish.

While the polish chemically reacts with the concrete to lock in the color, the mechanical application closes the surface to keep out contaminants. One application, permanent results. Lustrous color, protected by a tight, beautiful sheen.

Available in finishes from satin to gorgeous gloss, the Bomanite Custom Polishing System offers exceptional resistance to slipping, abrasion and impact. Finished surfaces also repel water and oil and are dust-proof. Superior to limited-life coatings, this finish doesn't require replacement, recoating or waxing. The non-toxic, non-flammable and odorless application is environmentally friendly. And surface care is user-friendly as routine cleaning will maintain luster.

Superior craftsmanship has always defined the Bomanite brand. The Bomanite Custom Polishing System is available exclusively by Bomanite Franchise Partners trained and certified to install this finishing system. Contact Bomanite to consult with one of our licensed, certified partners near you who can recommend and install the perfect, permanent, custom finish from our collection.

Color with Luster
Renaissance by Bomanite™

Bomanite's Custom Polishing System provides a lustrous finish to floors made with our premium Bomanite Integral Color. Color-saturation, the hallmark of our integrally colored floors, is unsurpassed with this one-time finish. For rich color at a reasonable cost, this is the perfect finish for any newly designed surface.

Color with Renewal
Modena by Bomanite™

Bomanite's family of restoration products makes old surfaces better than new. Used on top of high-strength, polymer-modified cement, the Bomanite Custom Polishing System transforms worn surfaces into beautiful walkways, courtyards and lobbies. Our finishing system permanently protects renewed surfaces while deepening existing color.

Color with Durability
Belcolore by Bomanite™

Praised for brilliant color and extra-hard durability, Bomanite's color-hardened surfaces stand up to more traffic than ever before when used in concert with this polishing system. The system chemically closes surface pores and mechanically polishes the floor, locking down color beneath an impenetrable shine. Suitable for surfaces in high-traffic industrial, commercial and public spaces, Belcolore by Bomanite is the right choice where strength is as important as beauty.

Finish with Protection
VitraFlor by Bomanite™

Even the results on gray concrete are stunning. Applied to existing or new uncolored concrete, the Bomanite Custom Polishing System creates a beautiful, protective sheen. Now even ordinary concrete can live up to Bomanite's promise that all concrete can be functional and stylish.

Color with Distinction
Patène Teres by Bomanite™

Reminiscent of the timeless look of terrazzo, a chemically stained floor finished with the Bomanite Custom Polishing System is guaranteed to make a statement. Our finishing system burnishes the rich umbers and blue-greens of Bomanite's Chemical Stain for permanent patina.
